

# Battle Standard 142 Gin Standard Strength

ABV: 45% (90 PROOF)

The Battle Standard 142 Standard Strength Gin gets its name from our founders' alma mater, the United States Merchant Marine Academy (USMMA). 142 Cadet/Midshipmen from the USMMA lost their lives during World War II serving their country. USMMA is the only of the five federal academies authorized to fly a Battle Standard in memory of those brave men who made the ultimate sacrifice.

## *Tasting Notes*

Battle Standard 142 Gin starts out from a grain neutral spirit base and is redistilled with eight botanicals to yield a delicious and unique tasting product that appeals to both gin lovers and non-lovers alike. This gin has a great juniper base with outstanding floral notes which makes it perfect for a gin and tonic with a slice of cucumber or lime, or in a Classic Martini with a small spray of Dry Vermouth and Olives.

## *Fast Facts*

- Our gin is classified as a New Western gin where the juniper berries do not overpower the other more delicate botanicals
- Battlestandard 142 Gin is distilled with eight botanicals including:
  - Juniper Berries
  - Orange Peel
  - Grains of Paradise
  - Cinnamon
  - Angelical
  - Cardamom
  - Coriander
  - Orris Root
- Approximately 70 pounds of Botanicals are used during the distillation of this gin in a 500 gallon batch – the amount of each of these botanicals is KO's little secret
- The gin is proofed to 90 Proof

750ml  
\$33.49 per bottle

## Our Story

KO Distilling was co-founded by college classmates and long-time friends Bill Karlson and John O'Mara in 2013. This new craft distillery in historic Manassas, VA is both a manufacturing plant and a destination. KO makes, stores, bottles and ships both high-quality clear (unaged) and brown (aged) distilled spirits. Their products will include gin, white whiskey, bourbon, rye whiskey, vodka, and other spirits. They are proud to be the 19th operating distillery in Virginia and one of roughly 1,000 (and growing) craft distilleries in the United States. They are also privileged to partner with many other small businesses, suppliers and farmers in the local area.
